

**Student materials list:**

- Niosch Approved Mask for Organic Vapors/AG Acid Gas (Home Depot)- 3M Tekk Protection Professional Multi-Purpose Respirator \$39.97 OR SIMILAR
- One, one-pint glass jar with lid to hold your Terra Sigillata to take home,
- Organic Materials. Dried Egg Shells crushed, dried banana peels, seaweed, dried coffee grounds, nut shells.
- Digital camera or cell phone camera for note taking and sketchpad
- Sharpie and pen/pencil for notes
- Soft oval mop brush or blush brush for applying Terra Sigillata.
- Spray Bottle for water. Heavier the spray the better. Even better is a pump sprayer.
- Standard Clay tools for building.
- Smocks to wear. We will be using chemicals and getting dirty.
- Close-toed shoes for alternative firings. No flip slops or sandals.

\*\*Please note that you will need to purchase an organic vapor mask to participate in the Ferric Chloride processes (~\$45). In preparation for the workshop, you will need approximately 20-40 small to medium pieces at various stages of completion. Please allow enough time for this planning. Detailed information will be provided upon registration.
